GOOGLE LOCAL SERVICES ADS

Google Guaranteed is gone. Here's what replaced it.

What the Google Verified badge means, and what to have ready before you pay.

Andrew Tesauro · Bright Automations

01

One badge now: Google Verified.

In October 2025 Google folded its old badges into one. Owners still call it Google Guaranteed. That name is retired.

02

The money-back guarantee ended.

The old badge came with a customer guarantee. The new one doesn't. Don't promise customers something Google no longer offers.

03

Google screens the business first.

Depending on your trade and state: business checks, your license, insurance and background checks. Google decides, not your marketing company.

04

Your Google profile has to be in order.

A verified profile, the right category and a service area that matches where you actually work.

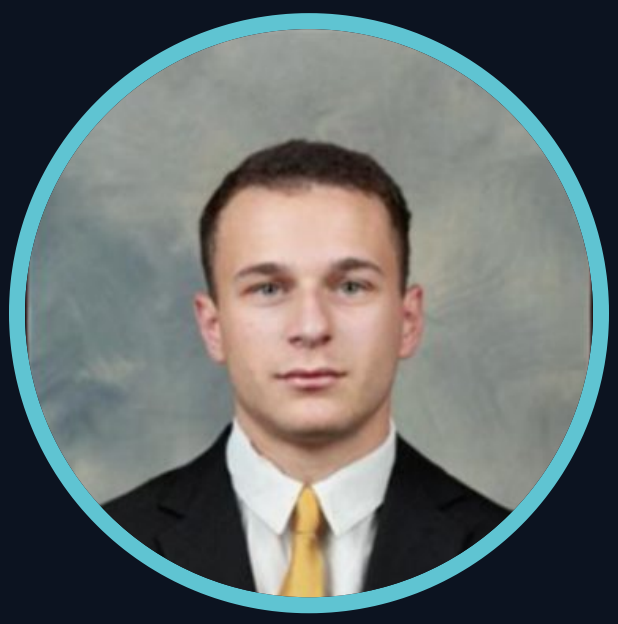

05

Have the paperwork ready before you pay.

Your insurance certificate, the license your state requires and accurate business details. Then you're not paying for ads that can't run yet.

You can't buy the badge. You earn it.

Most trades earn the Google Verified badge once Google's screening clears.
